WHAT PARTICIPANTS SAY ABOUT HUTS FOR VETS:

"The peer group approach is exactly what I needed to realize, and admit, that I have a problem beyond myself diagnosis and I am ready to take it on."

Mike Greenwood
US Army, Iraq & Afghanistan

"This was my first time in the wilds and it was with the best group of veterans I've ever been with. Huts For Vets and my fellow warriors saved my life over the last four days together. Finding healing from all the things we've experienced could not have happened in a better place."

Daniel Coleman
US Marines, Iraq
