

Northrop Grumman Mission Systems Military Communicator

April 2021

Welcome to the Mission Systems Military Communicator! Our intent is to provide you an opportunity to learn more about Northrop Grumman and more specifically, Mission Systems. Northrop Grumman is over 85,000 employees strong with over 20% veterans and another 1600 employees currently serving in the Guard and Reserve.

Why Northrop Grumman?

One of several programs we have for transitioning service members is **Operation IMPACT (Injured Military Pursuing Assisted Career Transition)**. This program was developed in 2006 and has helped hundreds of transitioning service members through the years.

Operation IMPACT is a unique, award-winning diversity program within Northrop Grumman focused on assisting disabled service members as they transition from the military to a private-sector career. In addition to providing support to the injured service member, if he or she is not able to work, we offer the same career support to the individual's immediate family member who will act as the primary wage earner. If support is provided to a family member and the service member becomes able to work, support will then be extended to him or her.
