

**Transitioning from your military service and would like support through the process?  
We are recruiting for our Valor Bridge Valor Journey cohorts starting in March!  
Please contact Andrea Filz (andrea@salutecolorado.org) with any questions or to obtain  
additional information.**

**Our Mission: To support Veterans in their transition from military service through a continuous program of education, mentorship, and community. We empower military leaders to emerge as business and community leaders.**

**Valor Bridge** - consists of a comprehensive, in-person, 8-week curriculum led by executive coaches and leadership development professionals focusing on key components such as translating military skill sets, interviewing and salary negotiations, personality profiles, identifying strengths, business economics, leadership training and effective networking and relationship building. At the end of the program, fellows will be paired with a mentor in their desired field.

The ideal candidate for Valor Bridge is recently separated from the Armed Services and looking for a more intensive training program to help move forward on their path to civilian sector success.

**Valor Journey** - a 2-year program that provides participants with a dedicated mentor, goal setting assistance, funding for professional development, invitations to networking events, training opportunities, and peer support to navigate their pursuit of post-service career objectives.

The ideal candidate for Valor Journey is recently separated from the Armed Services with a focus on a specific education and career path that could be enhanced by the support of a mentor in that field.

**Valor Connect** - offers continuity and connection for all alumni and current participants of Valor Bridge and Valor Journey, their mentors and our supporters. Events range from in person training to outdoor adventures, allowing these groups to connect, network and support one another.

We operate our programs throughout the year and we encourage anyone interested to complete an [Expression of Interest Form](#) online.
