## The GRECC Connect Program

GRECC Connect is an inter-professional team that provides telehealth geriatric or palliative care to rural and highly-rural outpatient clinics in Colorado.

### The program:

- Conducts clinical video-teleconferences.
- Provides geriatric evaluations and consultations, which include geriatric syndromes, dementia, and palliative care.
- Offers location options including rural VA Outpatient Clinics; the Veteran's home via a VA-provided tablet; and the Veteran's home via personal laptop, computer, or smart phone.

**Referrals can be placed by any VA health care provider.**

### Consultations focus on:

- Community resources.
- Medication management.
- Caregiver support.
- Disease education.

## Which disciplines are included in the GRECC Connect Program?

- Geriatrician or Palliative Care Provider.
- Geropsychologist.
- Geriatric Social Worker.
- Geriatric Pharmacist.

## Why refer to the GRECC Connect program?

- Assist Veterans and caregivers who must travel from rural areas to the Rocky Mountain Regional VA Medical Center in Aurora.
- Assist Veterans with serious medical and mobility challenges.
